

6th Grade Class visit

May 19, 2011

Ms Melinda Bernabe, Blair Middle School, PUSD

Steve Kidder

Steve:

I brought the earthquake machine, some silly putty, and two rocks that illustrate what I'm working on. I showed some slides of my research work (and illustrated some of the concepts with the silly putty and rocks). My only advice: If you can choose a time, don't choose the last hour of the day because the kids can get "squirrly" and it's harder to keep their attention.
